Aalshorst Rovino Red brings together two of the best cow families for breeding in the world. His sire, the popular young Rovelli, is a descendant of the Etazon Warsau family that has branched out around the world and has already produced many outstanding AI bulls. These bulls produced, and still produce, cows with the ability to age well. Rovino's maternal line has also been an established name for many years and combines good conformation with high component percentages. Visstein Ardiana, Rovino's dam, is out of a full sister of K.I Samen bull Davy and is closely related to Iconic P Red.
