With Groenibo Balade, K.I. Samen brings in a Borax son from the strong Jane cowfamily of the Borst family from Heerhugowaard, with the well-known Jaantjes from Hilbrand Korver behind it. This proven cow family has also produced Pressure P and Cristiano P.

The line combines strong conformation with high milk production and striking fat and protein percentages, moving towards 5% and 4%. Several cows are close to, or have already passed, the 100,000 kg milk mark. Balade therefore brings production, components, longevity and conformation together in one convincing bull.
