PRACTICAL PROVEN BREEDING

BULL INFORMATION

Name	Achterberg Alec Red	Date of birth	2021-09-01
Herdbook number	NL 575111000	Gestation length	275
A.I.-code	361288	Kappa Casein	AB
PFW code	B	Beta Casein	A2/A2
aAa code	342	Cow family	Birgit
colour	RB	Straw colour	Yellow
Breed	100 % HF		

In our search for good cow families, we sometimes come across new pedigrees that have never been used before. A pedigree that fits this category is the maternal line of Achterberg Alec Red (Andy x Carnival x Supreme). The cows in this line do not share a common ‘family’ name, as each new cow is named individually. However, what they do share is many production and conformation traits. High component percentages and good conformation typify this cow family. They also perform very well in terms of lifetime production. One example is Petra (VG 85), Alec's great great granddam, who achieved lifetime production of more than 100,000 kg of milk (with good components). Her daughter by Taco, Zilfia (VG 86), managed a little less, but still produced more than 60,000 kg of milk (including 3.60%). The next generation offers Supreme daughter Bigrit (VG 86), a cow shown twice at the NRM. Partly thanks to her high average lactation value, she merited a ‘Star Cow’ 1 award. But, maybe more important, are the breeding capabilities of this cow, who also noted lifetime production in excess of 75,000 kg of milk. Four of Bigrit’s daughters have started lactation, and each of them was classified with at least 85 points and achieved protein levels of 3.65% or higher. One of these was Jinte, Alec's...
