PFW code	C	Beta Casein	A1/A1
aAa code	213	Cow family	Pietje
colour	ZB	Straw colour	Transparent
Breed	100% HF		

Alexis (PP) rf (Atomic x Pledge x Powerball) was born in France, but has Dutch origins. Namely with the Skalsumer Pietje family, that also produced the breeding bulls Sunny Boy and Jorryn. Alexis (PP) rf is a homozygous polled bull (all his descendants are born polled) and he carries the red factor.

Alexis (PP) inherited the red factor from his sire Atomic PP (Apoll P x Fageno) a bull who is also homozygous polled. Breeding bull Atomic passes on plenty of milk and good secondary traits. His daughters have very good frames and a slightly curved side view of the rear legs. The udders are very correct being firmly attached and compact in size.

As we mentioned, the Pietje family is part of the maternal line of Alexis (PP) rf. This is an extremely productive, protein-rich line, as proven by other members of this pedigree in the shape of breeding bulls Sunny Boy and Jorryn. The last generations of cows from the Pietje family now go by a different name. They have arrived in France and carry a name starting with the letter I. Here too, they excel in production and protein, among other things. These cows, just like the Pietjes, have wonderful conformation. This is demonstrated by the maternal line of Alexis (PP) rf that lists - with the exception of one generation - 10 generations of...
