Caudumer Lol 305 (VG 87)  
 (granddam of Expert rc (PP))

## BULL INFORMATION

Name	Apina Expert PP	Date of birth	2015-10-21
Herdbook number	NL 664359977	Gestation length	287
A.I.-code	361066	Kappa Casein	BB
aAa code	243	Beta Casein	A1/A1
colour	ZB	Cow family	Lol
Breed	100% HF	Straw colour	brown

There are not that many homozygous polled bulls used for breeding of top quality world-wide. If we can include Expert rc (PP) in this select company this remains to be proven. He does have all the ingredients (both for production and in terms of conformation) that is necessary for this in his lineage. What also stands out in this lineage is his outcross bloodline (Exploding Star x Kanu x Magna). Finally, Expert possess the red factor and is therefore interesting for both the black Holstein, as the red Holstein population.

Expert's sire Exploding Star has many similarities with Expert himself. Exploding Star is also a carrier of the red factor and has an outcross bloodline (Effect x Baxter). He also carries the polled gene, though the heterozygous strain (50% of his offspring will be polled while Expert will score 100% polled). In terms of production a light plus for traits is expected for Exploding Star. He stands his ground when it comes to conformation, especially for excellent udders. In addition, this heifer bull scores favorably for cell count and very good for fertility and durability.

What first stands out in the maternal line of Expert are the good percentages (especially for protein). From the grandmother on, Expert has 4 generations of cows who have...
