- Carrousel Regiment-Red-Et ♂
- Kamps-Hollow Altitude-Et ♀

Lifetime production:
1844d 65.525 4.4% 3.5%
EX 95

Meet Challenger-Red, a Done Right son of the legendary “Apple” herself. This cow has cemented her place in the hearts and minds of breeders across the globe as one of the greatest show/brood cows in the history of the Holstein breed. If you study her pedigree, it is apparent that Apple wasn’t a genetic fluke, but rather the culmination of decades of astute breeding.

Triple-Hil sires vision with this mating was to produce offspring from Apple that would complement her physique while maintaining everything we love about her. They believe Challenger can channel Apple’s breeding power while adding to the longevity and good components that already excel in this maternal line.

Challenger-Red is a very correct young bull, with his mother’s capacity and wonderful rib, and also with a slope from hips to pins. Expect Challenger to add substantial openness and width to a mating. The aAa code of him is 354126. Challenger’s full sister looks also very promising, which is good information to start with offering this bull to Europe. Challenger Red is CVM carrier.
