

Breeder: Geraldine Shanley, Clooncolligan, Ireland

- + Pallister was acquired due to his pedigree which is suitable for the beef on dairy segment and for pure breeding.
- + Pallister is an Americano son out of the Mohedian Niamh cow family
- + Pallister stands very correctly, has great locomotion and has good length for his type
- + This bull's character and his development score above average
- + His dam has the right Angus characteristics, lots of length and good milk production to function as a suckler cow
- + Pallister's calves show good growth
