Baileys Duncan is a son from Vantheman out of dam Baileys at Dawn. She is a cow descending from a show winning family with several major victories in Ireland.

Also the paternal line has been very successful in the show ring. Sire Vantheman is noted for his docility along with his muscularity and ease of calving.

Duncan is a bull with muscularity, length, correctness and a tremendous docility. He is a bull where even the French farmers will be surprised of! Due to his type, growing speed and feet & legs. The first reports of his calves are excellent. Duncan is a bull you don't want to miss!
