Bandito van Pesaken is an almost completely red coloured Improved Red Beef (VRB) bull from the breeding barn of Mts. Van de Burg-Bernard from Gulpen, the Netherlands. Mts. Van de Burg-Bernard is working hard to breed cows with a natural calving ease.

Bandito's sire is Gert van de Lingenhof. He is a bull that doesn't need any explanation as National Champion of his breed in 2003. Dam Trees 4030 is a daughter of George. She calved practically each time the natural way. Bandito himself is a stylish typical bull with a fine skin texture, well developed and good muscularity. Via his sire he also got a bit of Belgian Blue blood.

This new interesting representative of the modern Improved Red Beef breeding deserves to be used extensively, within his breed as well as outside his breed.

Internationally there was already a lot of interest for Bandito, before his first semen was even available.
