A.I.-code	786599	Beta Casein	A2/A2
aAa code	423	Cow family	
colour	EB	Straw colour	
Breed			

Bayview Hamulus Erling is the son of a Danish sire from an American bred maternal line, with Caliban as sire, Casino as maternal grandsire and Chrome as third sire in the pedigree. By combining Danish and American genetics, the aim is to breed Jerseys with better conformation, more milk and still maintain higher components.

Erling is a well-built bull with sufficient size. He is currently the highest ranking bull available from Cogent with a score of 295 PLI. Erling has the uncommon aAa code 423. He is free from the two known Jersey defects JH1F and JNSF.

The Bayview breeding program has focused for many years on breeding cows with good conformation, high fat and protein production, without compromising the cow herself. Looking at Erling's proof, we see expectations for good longevity in his daughters as well as strong production.
