colour	EW
Breed	100% SP
Date of birth	2018-04-08
Draagtijd stier	0
Gestation length	106
Calving ease	77
Straw colour	Wit

Bealad Frost is a new Speckle Park bull who is ideal for calving ease. Speckle Park Warrior was the first, and a highly successful, bull to give extreme ease of calving. Calves by his son Cranston were heavier. Calve Easy from Australia also gives very light calves at birth. Bealad Frost is a bull who combines extra body length with good muscularity and growth traits. His sire gives light births and Bealad Frost is expected to do the same.

An additional advantage of all Speckle Park calves is their vitality. The vitality of calves produced by both Warrior and Cranston is well above 100. This vitality is contributing to the growing popularity of the Speckle Park breed and we hope to offer a welcome addition to our portfolio in the shape of Bealad Frost.
