colour	EW
Breed	100% BBL
Date of birth	2021-03-19
Gest. length days	277
Gestation length	89
Calving ease	134
Straw colour	Zalm

Beer van de Graashook is the full brother of Bobo, who is the first Bruno son to score very good breeding values for calving ease and gestation time.

Beer numbers various well-known names in his pedigree, such as Bruno, Dorus and David in the paternal line and Ugo and Lucas in his dam's family. K.I. SAMEN has successfully tested three bulls produced by Bobo's grand dam: Dino, Alfons and Shaun. If his brother Bobo is anything to go by, the expectations for Beer are also outstanding. This makes Beer a welcome addition to our portfolio of beef on dairy bulls.

Just like his full brother, Beer is expected to produce very lightweight calves, born after what will probably be an even shorter gestation time. This means that Beer merits 5 stars for calving ease and will probably also pass on an even shorter gestation time.
