| Breed           | 100% HF                         |                  |            |

Lysander has it all. He is homozygous polled, is a red carrier, has good components and is a beautiful bull to look at. He also comes from the Aprilday Luster Muffin family and, through Augustus Red P, he also has influence from the Aiko line. This makes Lysander very interesting within the Holstein population. Thanks to his homozygous polled status, he can be used widely.
