We are pleased to release our first west-coast Holstein sire from the Mast family at Calori-D Cattle in central California!

Reckless P is a bull who brings many positive qualities to the table, not to mention his A2/A2 and polled status which add additional value. We will start with his dam, a cow who were privileged to see in her stall at Calori-D. The photos of Rylee gives you an idea of how good this wonderful EX-94 Crush daughter is! She exhibits copious amounts of dairy quality from head to tail, and her milk records confirm that quality, finishing her latest lactation with over 45,000 lbs in 365 days. This maternal line is one of the deepest in the breed, tracing back 17 generations of EX cows through Royal Rosa back to the matriarch Audrey Posch (EX-93).

On the top side, Luster P is a bull with a high level of reliability, who receives high marks from dairymen all over the globe. Luster has consistently stamps out super udders, high production and high type.
