Cooper van de Blomsteeg is a son of Attribut from a Harpon dam. This bull is very well developed and possess subtle feet & legs. The sire of Cooper Attribut is a very impressive bull and is registered with EX92 points. Attribut comes from an excellent maternal line with not only registered cows but also heavy cows! The dam of Attribut weighed more than 1000 kg at 139 cm.

The maternal line of Cooper is made up of Harpon, Elan de St. Fontaine, Ajuste du Bronheit, Bourgogne and Opticien. Aside from the fact that the entire family consists of heavy cows (with an Elan daughter who has a noticeably impressive rear) the fertility of this line is incredibly good. Even the dam of Cooper was impregnated after just one straw which is very impressive!
