

- + High component percentages
- + Good late maturity
- + Excellent muscularity

Hilda 98 (VG 89)
(dam of Dani)

BULL INFORMATION

Name	Dani	Date of birth	1993-11-11
Herdbook number	NL 221839593	Gestation length	279
A.I.-code	36375	Kappa Casein	
aAa code		Beta Casein	
colour	RB	Cow family	
Breed	100% MRIJ	Straw colour	Zalm

Dani is a well developed, typical MRIJ bull with very good feet & legs. In his pedigree we find the best genetics of MRIJ population (on sire and dam side).

Sire of Dani is the bull Door, very popular in Germany and the Netherlands. He shows complete figures for conformation, production and management traits. His conformation is all-round with good udders and on production he shows a lot of milk in combination with a + for protein percentage.

Dani's dam line is impressive. Dam Hilda 98 is probably one of the best cows inside the MRIJ population. Hilda 98 has terrific productions (with very high percentages) and top conformation. On an age of 9 years is registered with VG 89 points. She produced already 7 complete lactations. The same we find back with granddam Hilda, she is registered with VG 85 points.
