De Lindehof Tom Tom is a beautiful pure-bred red Dexter bull, bred by Mr. A. Slagter from Blesdijke, the Netherlands. Tom Tom is a welcome addition to the Dexter bull portfolio.

Dam of Tom Tom is a breed-typical black Dexter cow named Tweesprong Still Going Elsje. Elsje's sire is the English Dexter bull Butterbox Morris (red carrier). Tom Tom's sire is the black Dexter bull Tivoli Friso and descending from the known Tony-line. Also Friso is a red carrier. This combination resulted in De Lindehof Tom Tom: an equally red colored Dexter bull ('true red' with a 'pink nose'). He was born in 2007.

Tom Tom was used at first for natural breeding. Due to the good quality of his first offspring Tom Tom is now available for AI. Tom Tom is Bulldog carrier free (Chondrodysplasia non-carrier).
