aAa code	561423	Beta Casein	A1/A1
colour	ZB	Cow family	Anna
Breed	100% HF	Straw colour	clear blue

De Nautena Meester (Malki x Bertil x Level): a prime example of robust and proven breeding. Fitting to a master in his trade as being fully qualified to perform well, this bull - whose name translates to master - descends from a line of reliable and influential bulls -Malki, Bertil, Level and Cash. The name is therefore extremely appropriate name for this Malki son. Add to this a unique aAa code (561) and he may well be unbeatable in the category of bulls with balanced, rounded traits.

A bull who is currently attracting lots of attention in the segment of bulls with rounded characteristics is Malki (aAa 165), Meester's sire. Malki daughters mature late, a trait reflected in both their production performance and conformation. They show an unprecedented increase in production as their lactations progress. His medium stature daughters carry very good udders and stand on correct legs (including excellent hoof health). These qualities have already resulted in a large number of excellent-ranked daughters in his index.

Meesters's maternal pedigree - the Anna family - can also be called masterful. Reliability, late maturity and durability are terms that sum up these cows very nicely. For example, Meester's grand dam Anna 105 produced over 60,000 kg of milk with good components. A...
