Bonum, who sired Body, has been a successful breeding bull for years. Now it's his son's turn: De Paarlberg Body (Bonum x Mobile x Jorryn). This bull has an extremely solid, proven ancestry. His sire's pedigree is exclusively made up of reliable, daughter proven bulls. The high lifetime production is inherited from his maternal line. To date, the dam of this impressive bull Body has recorded sky-high component percentages (5.40% fat and 4.05% protein) and further back in his pedigree you also find high production figures with good components.
