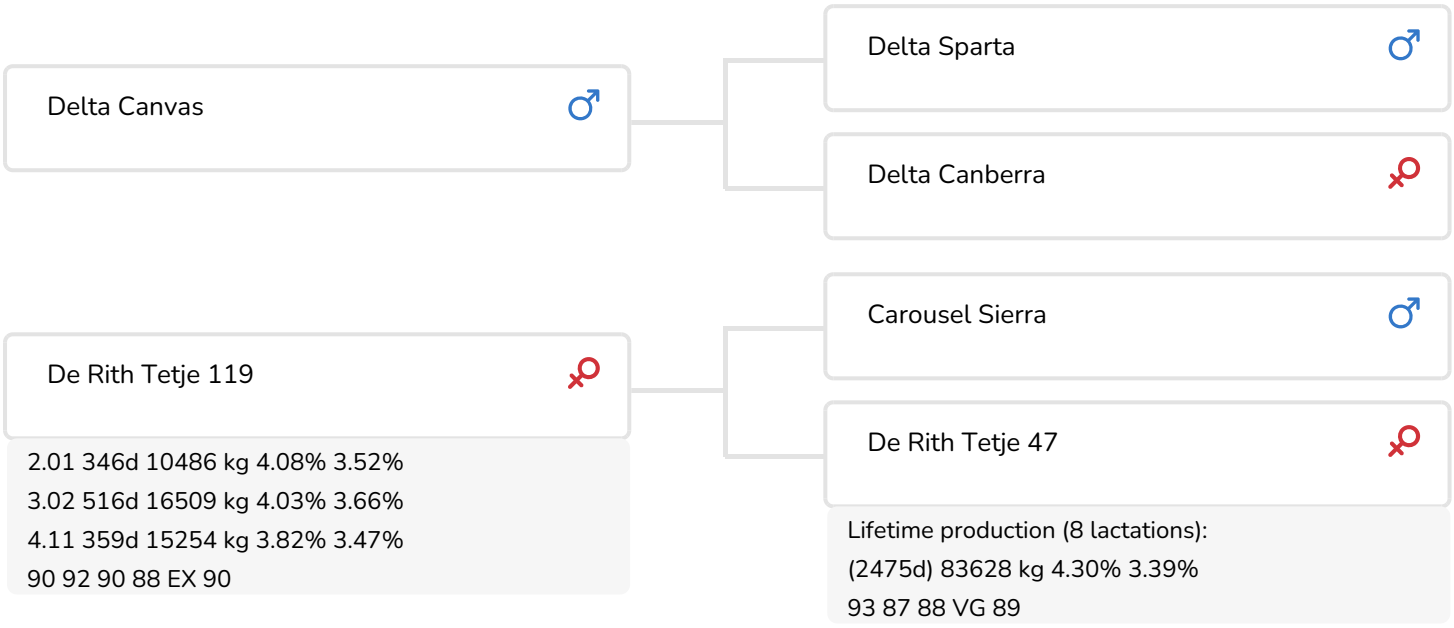
BULL INFORMATION

Name	De Rith Jupiter	Date of birth	2005-12-08
Herdbook number	NL 424322878	Gestation length	279
A.I.-code	36668	Kappa Casein	AA
aAa code	234	Beta Casein	A2/A2
colour	ZB	Cow family	Tetje
Breed	100% HF	Straw colour	Pistachegroen



An interesting bull for the black and red Holstein population is the red factor bull De Rith Jupiter RF (Canvas x Sierra x Sunny Boy). Jupiter RF has an outcross pedigree for both Holstein populations. In his pedigree we find high productions and good conformation. Jupiter is supported by two very good cow families, the Lou Etta-family and the Tetje-family (proven bull Chassee).

Jupiter's sire, Canvas, is one of the many sons which origin from the Lou Etta family. Almost all descendants from this family are bred for the black & white Holstein population, except Canvas, he has the red factor. Canvas is outcross bull and a valuable addition for the red & white Holstein population. His figures for production and conformation are of a good level. Extreme high milk production combined with an all-round good conformation. Strongest points are the rump angles, feet & legs and front teat placing.

The dam line of Jupiter has many good characteristics. The conformation is of a high level (4 generations VG or EX cows) and the productions are also of a good . Besides this are the strength and lifetime production of these cows good. Great granddam Tetje 33 produced for example more than 50.000 kg milk (110.000 pounds) and granddam Tetje 47 had a lifetime production of more than...
