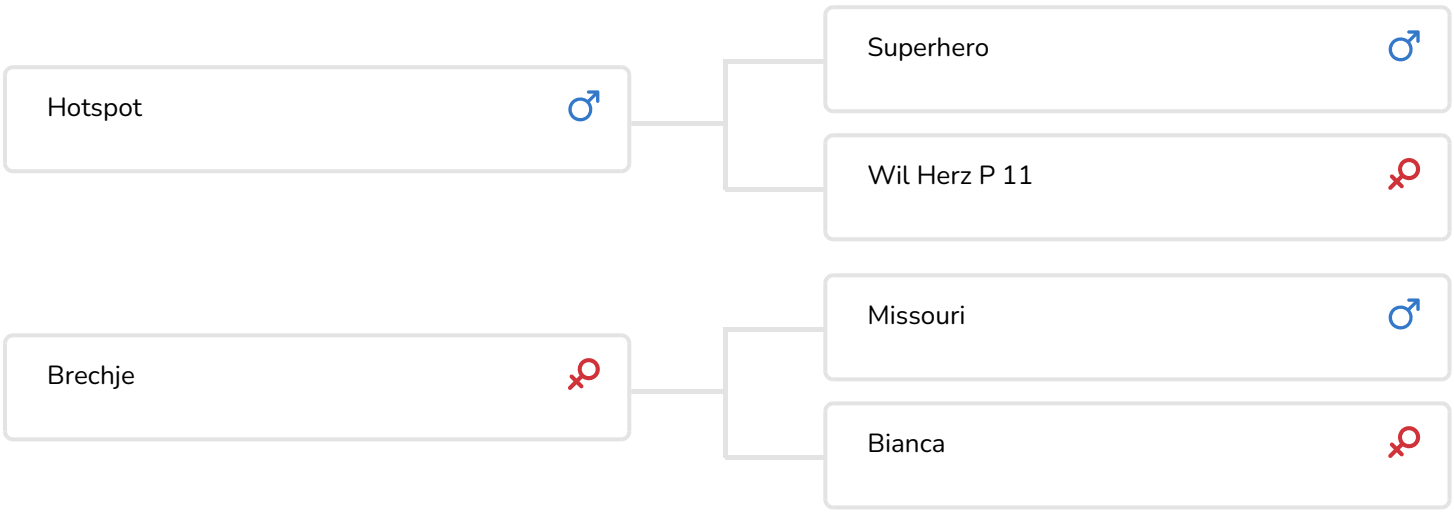
BULL INFORMATION

Name	DG Bon Bini P ET		
Herdbook number	DE 0361275630	Date of birth	2019-03-18
A.I.-code	782752	Kappa Casein	BB
PFW code	C	Beta Casein	A2/A2
aAa code	234	Cow family	Spottie
colour	ZB	Straw colour	Geel
Breed	100 % HF		



The Sunnylodge Prelude Spottie line, which originated in Canada, is a cow family that has acquired a lot of international fame over the course of time. Regular delivery of proven bulls, has made Spottie a leading name in dairy cattle. The Cogent bull DG Bon Bini P (Hotspot x Missouri x Smurf) also comes from this line, more precisely from a European branch of the Spottie family. Bon Bini carries the polled factor, the A2A2 gene for beta-casein and BB for kappa-casein. High milk production and protein content levels are expected through production inheritance, while, in terms of conformation, top quality udders with somewhat longer teats stand out and the scores for secondary traits are all very good.

The sire Hotspot P passed on the polled gene to Bon Bini. The German bred Hotspot has been used a lot as a sire of sons and turns out to be a top-class bull. The striking characteristics of this jet-black bull include high content levels, very good udder inheritance, great secondary traits and easy calving bull status.

The successful Spottie family, which can be found in Bon Bini's dam line, comes with high conformation scores. From Bon Bini's great-grandam Bayla (VG 86) this line has 11 generations of cows with an Excellent (EX) score for general appearance. This breed line. with...
