PFW code	C	Beta Casein	A1/A2
aAa code	423	Cow family	Hasta
colour	ZB	Straw colour	Purple
Breed	100 % HF		

Dijkstar Bernelli (Bernell x Solero x Nelson) is another bull who meets all the requirements at K.I. Samen. A pedigree that contains bulls with high, reliable inheritance scores and a cow family that has produced breeding bulls such as Stol Joc and Vitality. Other notable traits offered by Bernelli are high protein percentages, very good late maturity and great durability.

All these traits mirror the strong points of Bernelli's sire Bernell. This calving ease bull bred in Denmark has an alternative bloodline (Bube x Salomon). He also offers fine production transmission (including a plus for protein percentages) and good conformation (including correct legs with slightly more curved rear legs side view) And last but not least, Bernell has super health traits.

Good late maturity and durability are defining traits of Bernelli’s maternal line, the Hasta family. Many generations of bulls produced by this line (Solero, Nelson, Maik, Malaga, Gibor and Ramos consecutively), all have higher than average scores for late maturity and durability. These traits are clearly reflected in the Hastas. The youngest three generations are all still alive. The oldest of these cows is Maik daughter Hasta 1 (VG 86). This great grand dam of Bernelli started with a lactation value of 108 as a heifer and...
