Dino van de Graashook, given his pedigree, is a special bull who promises only easy calving. Dino was born the natural way without any assistance and the expectations are that his offspring will follow his lead.

His grandmother is the dam of Rein van Boszicht. Dino's dam is the half-sister to Rein whose his sire is David van Boszicht, who is well-known for his light and consistently white calves. The dam was then bred to the very well-known beef on dairy bull Artiste du Stordeur, better known by his nick-name Arti.

Dino is a bull that is almost a sure bet given his pedigree and family line when it comes to choosing easy births and for beautiful white calves. Use Dino with confidence as the family has proven itself over and over again.
