Drouner Aryan (Prestige x Bestboss x Kanu) is an imposing, well-developed bull, with an impressive conformation and pedigree. This outcross bull is ideal for the show segment, without compromising on production abilities. Aryan's maternal line, the highly successful Aiko family, adds an extra quality guarantee.

The Aiko/Altitude line is currently one of the top performing cow families for breeding internationally and is also causing a furore in the Netherlands. Aryan's maternal line offers milk in abundance, good protein percentages and exemplary conformation. With, in succession, an 89-point dam, a 90-point grand dam and an 87-point great grand dam, preceded by seven generations of cows ranked excellent, conformation is of an exceptionally high level. Practically without exception, the bulls from this family (including Attico, Jotan, Aikman, Acme and more recently Rednex and Effetiv) all transmit top conformation. This line also recently produced another star among genomic bulls: Augustus, who is closely related to SAMEN bull Aryan. This Solitair son is out of an 87-point Silky half-sister of Aryan. The female descendants produced by this family are also worthy performers. Aryan's grand dam Aiko 1267 (EX 90) was reserve champion in the intermediate class at the HHH show,...
