As long as K.I. SAMEN has been in existence it has tried to provide a varied selection of bulls, especially when it comes to the pedigree. Elroy (Edelmutter x Malvov x Laurel) is a bull who fulfills this philosophy exceptionally well. This in Germany bred bull has a pedigree of good productions (with good protein content) and wherein very good conformations can be found. On top of that he has an extremely low score of 5% for relationship degree and therefore can be called outcross.

Elroy's sire Edelmutter (Ellmau x Sterngold) has a score of 6% for relationship degree including the farthest relations in terms of pedigree. His expected inheritance pattern combines a fine production index with top conformation. Namely in the rumps and udders is where he brings in the most improvements.

In the maternal line of Elroy we can find cows with good body and an average height. The cows from this G-line carry very good udders and feet & legs and are in noticeably good condition. Though the high production levels that they're able to realize cannot be seen by just looking at them. They also know how to maintain their protein content. Grand dam Gusti and great-grand dam Gabi scored an average of 3,60% or higher for protein content over the...
