aAa code	261435	Cow family	Enniskillen Suzy
colour	EB	Straw colour	Transparent (Medium Straw)
Breed	100% JER		

Enniskillen Century (Centurion x Respect x DJ) is an American-based Jersey bull. High components, fabulous udders and longevity are all characteristics that are strongly embedded in his maternal pedigree. And the ability to pass on high components is also secured in his sire's line, and, in terms of conformation, Centurion's sire ranks excellent for feet and legs. Both the rear view of the rear legs and locomotion are exemplary, as well as fertility.

As mentioned above, Century's maternal line also scores very well for conformation, and comprises six generations of cows with conformation scores ranging from 84 to 95 points. Dam Enniskillen Respect Suzy (EX 95) also passes on that wonderful conformation to her offspring. Century already has six sisters rating VG (more than 84 points) or excellent. In addition, the Suzy line has sky-high component percentages (more than 5% fat and 4% protein).
