Faisceau is a bull that was brought to the Netherlands directly from the test station in Lanaud (FR) by Mr. Teus Dekker. Since then he has been a used as a service bull at the breeding farm of Jo Vos te Valkenswaard.

This bull scored very good figures on tests in Lanaud and his index is as follows: growth 108, muscularity 102, frame 107, total index growth 109, functional characteristics 112, breed type 108.

The bull Faisceau is also a bull that was born easily and produced easy calving offspring. There have already been around 50 such calves born on the farm of Jo Vos, without any problem and with plenty of vitality. The calves show nice muscularity and are growing quite well. The slaughter quality of the offspring is excellent with E or E+. When looking at the results in practice, this bull exceeds his own expectations. As an added benefit, Faisceau is a very easy and calm bull. Given his lineage he is a welcome addition for the pure breeders. He is additionally suitable for cross breeding usage because of the easy calvings. Faisceau is a beautiful, quiet bull who will not disappoint you.
