Herdbook number	US 197430	Kappa Casein	
A.I.-code	766824	Beta Casein	
aAa code	642513	Cow family	
colour	EB	Straw colour	Yellow (Medium Straw)
Breed	100% BS		

Front Line Jolt Burton is a welcome addition to the Brown Swiss breeding programme. Burton’s sire Jolt only has a few lactating daughters in the Netherlands, so his reputation mainly rests on legs and calving ease.

Burton's dam has a good milk production record and was sired by a very good bull -Absolute -, who also scores well. His grand dam is a very famous cow and a daughter of the equally well-known Even, who has turned out to be highly in demand internationally.

One of the reasons we acquired Burton is his slightly unusual aAaA code 642513. Burton combines good fertility with a good somatic cell count, with slightly positive component percentages. At +1.9, he scores excellently for longevity in the USA. A bull can also easily be used as a calving ease bull with a score of just 5 in the USA, whereas 8/9 is the average score.
