colour	RB	Straw colour	Yellow
Breed	100% HF		

Keylon Red P offers a unique combination of polledness and a rarely seen aAa code of 654. Grashoek Keylon Red P also descends from a family that truly stands out for longevity and conformation. His dam Lonka 74, the excellent ranked 6th calf Eragon daughter, produces milk very easily and is currently on her 6th list. She has produced two daughters who were registered the maximum score of VG 89 in the 2nd lactation Both daughters resemble their dam and Keylon Red P also shows many similarities with her. Keylon Red P is an extremely good match with cows that need strength and capacity. This makes him a winning addition to the polled segment.
