Herdbook number	FR 2313134653
A.I.-code	768258
colour	EB
Breed	100% LIM
Date of birth	2012-09-25
Gest. length days	
Gestation length	
Calving ease	
Straw colour	Pink

Hadrian is a very impressive bull and comes from the breeder GAEC Lebourg in Maison Feyne (France). Hadrian has a great pedigree and with great results that do the pedigree honor. Hadrian was purchased at the prestigious KBS sale in France and shows very good growth rates. The bull is well developed and his dam is a cow with very good milk qualities (109) and with excellent fertility: A calf every year!

Hadrian has an incredible length in the skeleton and a strong upper carriage, combined with good functional characteristics. His capacity for growth and development were the reasons why he was purchased. The bull has a very calm character and great muscularity, and enough style in terms of his breed.

Unfortunately, this bull only came to the AI station last year and will receive his breeding values for the first time in the course of this year. As soon as this information is released, we will share it with you. Hadrian certainly has a pedigree that has plenty of potential, both for the male and female side of breeding.
