aAa code		Beta Casein	A2/A2
colour	BZ	Cow family	
Breed	100% G	Straw colour	Transparant

Henmeer Julius is a stretched bull for the white-head population. Julius HM is also a carrier of the red factor. Sire of Julius is Fritema Jitze, a bull with very high percentages.

The dam of Julius is Marleen 21, a very good developed, beautiful udder cow with very deep ribs. This cow has super protein which resulted in an average lactation value of 130. This high protein level and good longevity was also seen with granddam Marleen 10.

Calves from Julius that are born show average till well developed progeny with a good (milking) type. All of them were born easily.
