

Alger Meekma

Breeder: Mts. van Loenhout-Jansen, Prinsenbeek

- + From the Guurtje family known for good conformation
- + Low kinship
- + aAa 513
- + Beta casein A2A2

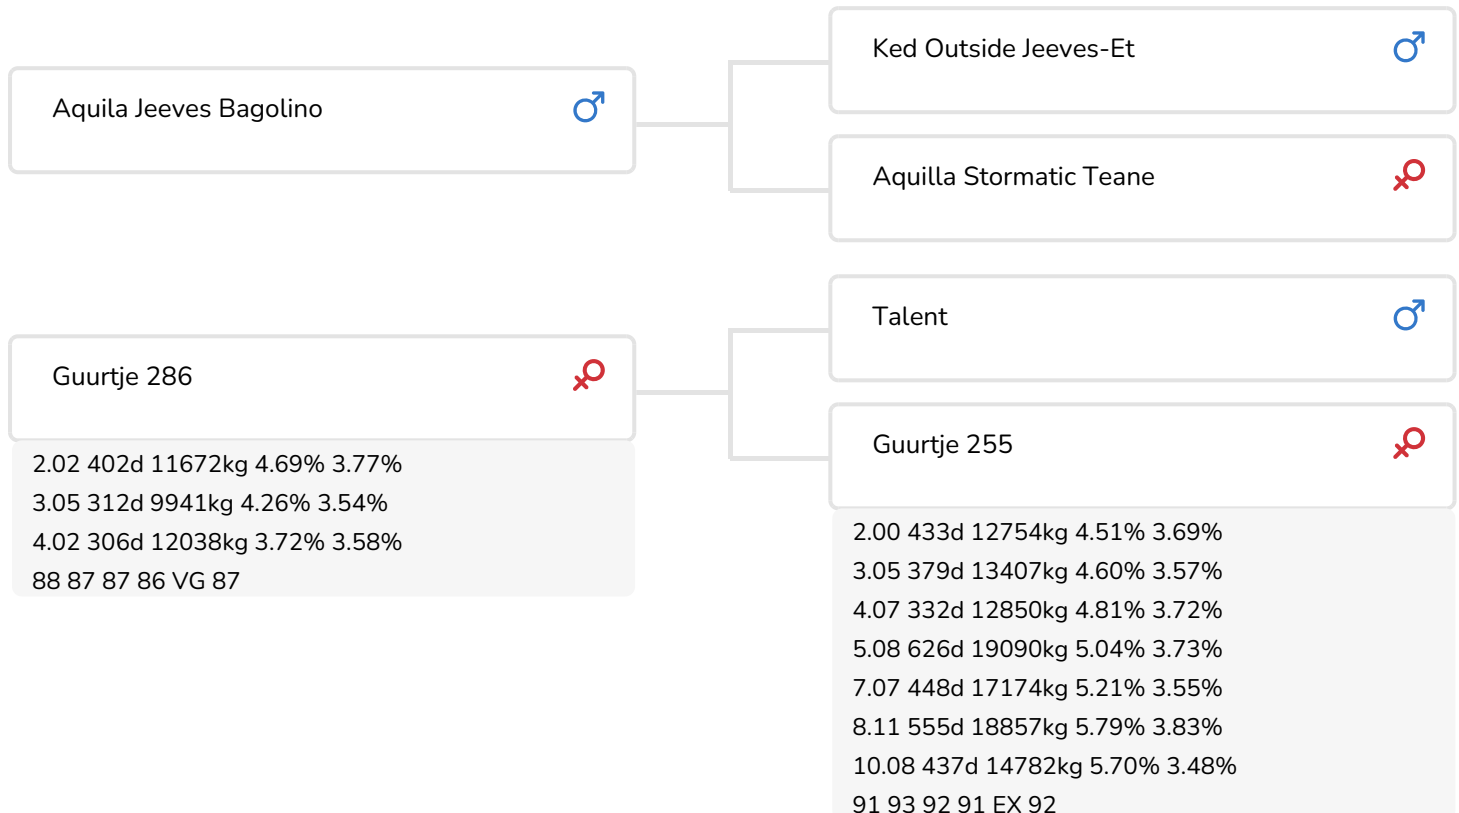

Alger Meekma

Guurtje 255 (EX 92)
(grand-dam of Guido)

BULL INFORMATION

Name	Hooglaar Guido	Date of birth	2017-04-11
Herdbook number	NL 734355634	Gestation length	280
A.l.-code	361141	Kappa Casein	AA
aAa code	513	Beta Casein	A2/A2
colour	ZB	Cow family	Guurtje
Breed	100% HF	Straw colour	Rose

Guido (Bagolino x Talent x Goldwyn) a well-developed, wide-bodied bull comes with strong conformation credentials. His paternal and maternal lines both show an impeccable performance for conformation. Rated A2A2 and with an aAa-code of 513, Guido would seem to be a great bull to use to add more width and dairy type to cows that need a corrective boost.

Guido has definitely inherited these balanced traits from his sire Bagolino. This bull, rated an aAa-code of 156, has a pedigree (Jeeves x Stormatic x Patron) with a very low level of kinship. Bagolino tends more to pass on great conformation than high production. The conformation traits he transmits to his offspring are outstanding and include notable, sloping rumps.

Guido's maternal line (the Guurtjes) also has clearly plenty to offer in terms of conformation. They also perform well in production (including good protein percentages) and reach strong lifetime production figures (including 115,000 kg of milk by an 88-point Bonatus daughter while a 87-point ranked Othello daughter produced 122,000 kg of milk). The Guurtjes also shine in the conformation stakes. One of the true stars of this line is Guurtje 253 (the great grand dam of Guido), an excellent ranked Starleader out of Stardom daughter Guurtje 247 (EX 90). Guurtje 253...
