colour	EB
Breed	100% PTN
Date of birth	2014-10-05
Gest. length days	
Gestation length	
Calving ease	
Straw colour	White

Jacquot is a son of Cyclamen. Cyclamen was national champion at the Sommet d'Elevage (France) in 2013. He is known as a wonderful bull who passes on fabulous muscularity to his progeny and a fine bone structure. His son Jacquot is a bull with equal muscularity, but lighter weight calves at birth. His dam is of average size with extremely good maternal traits and good muscling.

JACQUOT is a bull that will give easy calving and in addition to the fine bones will also improve muscularity and maternal traits. Jacquot has been approved in France for insemination in the Parthenaise breed, where he is widely used on maiden heifers.
