colour	RB
Breed	100% VRB
Date of birth	2011-01-18
Gest. length days	282
Gestation length	105
Calving ease	113
Straw colour	Yellow

Jos van de Kraloërheide is a single-coloured red son of the well-known bull Jos, a descendant of the bull Martin. He is an extremely well-developed (87 points), very luxurious bull with plenty of muscling (88 points).

His offspring can be dark red or red coloured, with good dimensions in length and width. This is something he inherited from Jos, his sire. The feet & legs of the calves are fine and strong.

Steintje, the dam of Jos, is also solid red in colour and has a sufficient frame and good muscularity, just like her sire Bert (sire Silvester).
Jos KHL has a unique pedigree in that virtually no other bull in A.I. service has the same origins!. Therefore, he can be used quite extensively within the herd-book selection and outside the herd book.

Jos KHL comes from the family Van Beukelen in Pesse, who have been breeding Verbeterd Roodbont there for the past 30 years now. The Van Beukelen family are also the breeder of Jacob's Juweel, a bull who has more than proven himself.
