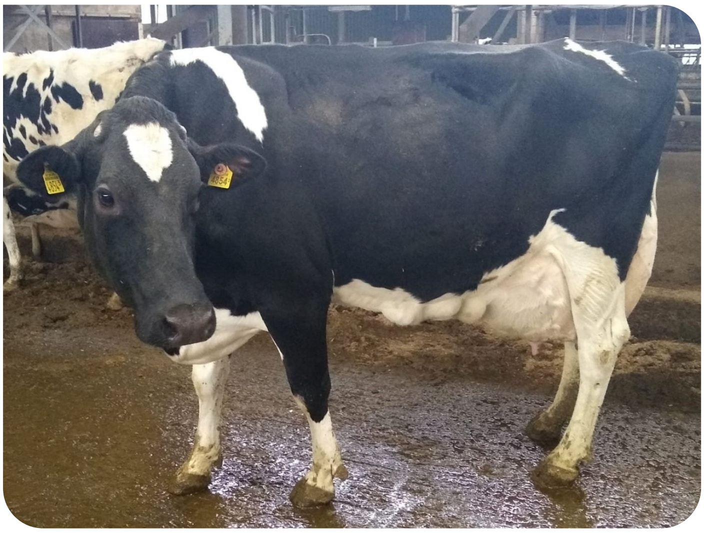
361255 • Kapittelshof Stradlin
Slash x Delta G-Force x Nieuwbouw's Cortez •
aAa: 354162

Breeder: H.F.R.A. Scholtens VOF, Kekerdom

- Pedigree with reliable, proven breeding bulls
- High components
- All-round, good conformation
- Good health traits and longevity
- aAa 354



Elly 390 (VG 86)
(dam of Stradlin)

BULL INFORMATION

Name	Kapittelshof Stradlin
Herdbook number	NL 757163199
A.I.-code	361255
PFW code	B
aAa code	354162
colour	ZB
Breed	100% HF

Date of birth	2020-11-16
Gestation length	281
Kappa Casein	BB
Beta Casein	A1/A2
Cow family	Elly
Straw colour	Rose

Slash ♂

- Balu ♂
- Vdr Sandra 2 ♀

High components: for many dairy farmers this is one of the main criteria taken into account when selecting a bull. Kapittelshof Stradlin (Slash x G-Force x Cortez) is a bull who guarantees high component percentages. With a maternal line that has 5% fat and 4% protein embedded as standard, and a bull known to transmit super components as a sire (Slash), Stradlin has all the ingredients to become an outstanding transmitter of high components.

As already been mentioned, Stradlin’s sire Slash is recognised as a very good component transmitter, combined with great scores for milk. But Slash has a whole lot more to his name. With his aAa code of 153, A2A2 and BB for the both caseins and calving ease, Slash offers a host of extra interesting traits. Furthermore, his medium statured daughters have plenty of width, good udders and very good legs.

It is rare to come across a cow family that excels so well in components as Stradlin’s maternal line. Both Stradlin’s dam and grand dam produce milk with more than 5% fat and 4% protein. The generations a little further back do not quite achieve these percentages, but come pretty close. Combined with good production, the result is high lactation values. The conformation of the Ellys is also worth mentioning. The two Epochal daughters produced...
