

*Alger Meekma*

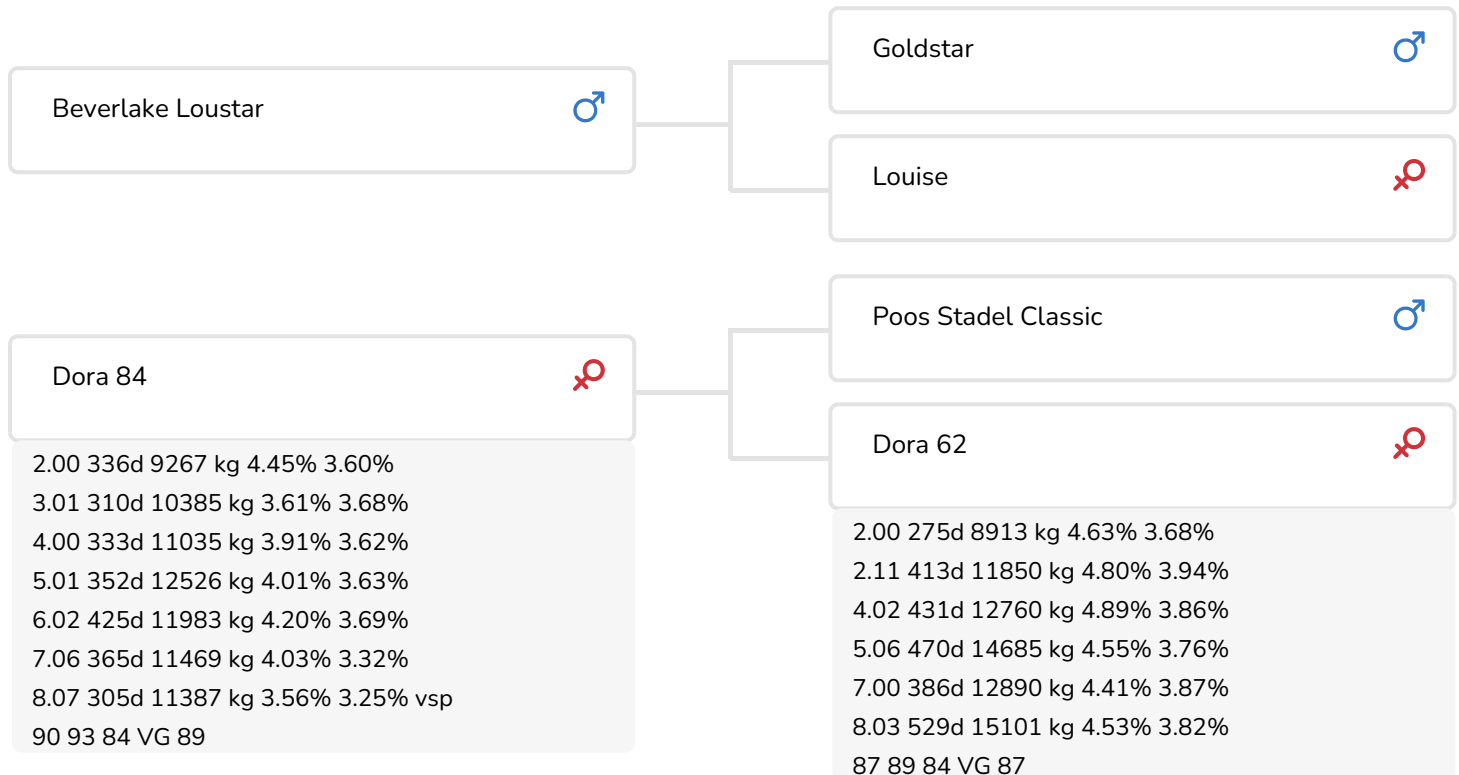

- + Beta caseïne A2/A2
- + Outcross bloodlines
- + High components for fat & protein
- + Well and high attached udders

Grashoek Tonnie 72 (VG 87) (8e lact.) (s. Lady Lover)  
Owner: Fok- en melkveebedrijf K.I. SAMEN, Grashoek (NL)

## BULL INFORMATION

Name	Lady Lover	Date of birth	2010-08-08
Herdbook number	NL 894360914	Gestation length	280
A.I.-code	36838	Kappa Casein	AA
aAa code	342516	Beta Casein	A2/A2
colour	RB	Cow family	Dora
Breed	100% HF	Straw colour	Oranje

Lady Lover (Loustar x Classic x Ronald) knows a pedigree in which several bulls from the black & white population can be found. Except for damsire Classic, Lady Lover has an outcross pedigree for the red & white population. However, more important are the great performances from the cows and bulls in his pedigree. High productions, great udders and longevity are prominently present in these lines.

This holds for example for Lady Lover's sire: Loustar. This Goldstar son from the successful black & white Lou Etta family can rely on a very nice and all-round breeding pattern. Loustar shows a balanced inheritance of production traits (positive for production, fat and protein) and average figures for fertility and SCS. Loustar, calving ease bull as well, also shows positive figures for longevity. His daughters show solid frames, good feet & legs and udders.

This last trait is definitely a strong part of the maternal line of Lady Lover: the Dora's. They are strongly build productive cows (high lactation values) with tremendous longevity. Lady Lover's dam, granddam and great granddam are still present on the dairy farm!! The tribe cow of this line, Dora 37 (VG 86) (The fifth generation) produced more than 100,000 kgs of milk. Royal daughter and great granddam Dora 53 (VG 85)...
