(daughter of Lightning rf)

BULL INFORMATION

Name	Lightning RF	Date of birth	1995-12-06
Herdbook number	NL 170475222	Gestation length	285
A.l.-code	36329	Kappa Casein	AB
aAa code	231456	Beta Casein	A2/A2
colour	ZB	Cow family	Tilly
Breed	100% HF	Straw colour	Geel

Lightning rf (Labelle x Leader x Jubilant x Anker) is a well developed, dairy character bull with excellent milk- and protein levels in his sire and dam line. Fine conformation is also in Lightning's pedigree. With his red factor is Lightning used a lot as sire for sires in the red & white Holstein.

Lightning's sire, Labelle, is used around the world as sire for sires. Labelle's daughters are good developed with very good feet & legs. By making combinations with Labelle you have to pay attention to the udder and especially to the fore udder attachment.

The fore udder attachment is the strongest point of Tilly, Lightning's dam. Tilly had with her linear traits score maximal score for fore udder attachment and teat placement. Tilly had a total score for udder of 88 (VG) points and a final score of VG 88. Tilly's full sister, Tonny, reached a final score of VG 85 and half sister Tessa (Cubby) VG 86. These three cows 1st lactation production was 9200 kg milk (20.000 pounds) with 3,50 % protein or higher. Lactation values varied between 124 till 139 of these 3 cows.

Lightning's daughters produce a lot of milk with high and narrow fat/protein ratio. The daughters are tough and good developed cows with super udders and feet& legs.
