PFW code	B	Beta Casein	A2/A2
aAa code	432	Cow family	Flame
colour	ZB	Straw colour	Yellow
Breed	100% HF		

A unique line-up of sires. When you match these names with the right cows, you'll discover a new Belgian cow family that consistently delivers high lifetime production and strong lactation values.

Dam Nescafé is a tremendous producer, with records over 16,000 kg and a lactation value of 128. This true dairy cow is currently in her fourth lactation. Grand dam Liedje is on her way to 80,000 kg of milk with over 4.70% fat and 3.90% protein. One generation back, the levels are even higher: 5.45% fat and 4.04% protein. A Santana half-sister recently passed the milestone of 100,000 kg of milk.

Lindegoed's Coldfire is a strong, wide-built sire with a correct, spacious rump and complete production potential.
