Breed	100% BBL
Date of birth	2019-03-07
Gest. length days	275
Gestation length	88
Calving ease	119
Straw colour	Beige

Macron van Maris is a half-brother of Rowan van Maris and offers well-fleshed beef conformation. He has a fine bone structure. The maternal pedigree of Macron and Rowan is known for their fineness and good beef type, combined with a shorter than average gestation length and very good calf vitality.

Macron was lighter weight at calving and was born after a short gestation length of 275 days. He has proven to show good growth with attractive muscularity.

Macron scores 4.5 out of 5 stars. In view of the already successfully proven bulls from the Van Maris barns, we also expect Macron to offer a great mix of calving ease and good calves.
