PFW code	D	Beta Casein	A1/A2
aAa code	234	Cow family	Trees
colour	RB	Straw colour	Orange
Breed	100% HF		

Mariahoeve Be True is a balanced breeding bull with a low inbreeding coefficient and a deep cow family as foundation. The Trees family is known for high lactation values. Dam Trees 151 (s. Malando, VG 89) has already produced more than 60,000 kg with 5.38% fat and 3.68% protein and an average lactation value of more than 110.

One generation further we find the excellent Trees 142. With 111,000 kg lifetime production, her excellent conformation and an average LV of 111, she was awarded the Star Cow-1 certificate. Another generation back we find Red Sunrise daughter Trees 108, who produced almost 80,000 kg in 6 records.

The Trees line, bred for many years according to the aAa system, consists of calm cows with good temperament and the will to grow old. Be True will not sire tall daughters, but they will be broad-built with sloping rumps.
