A slightly different pedigree, good conformation traits including correct legs, A2A2 for beta-casein and an aAa-code of 426. This just about sums up the main qualities offered by the imposing bull Mariahoeve Tribute (Jotani x Youri x Red Sunrise). Tribute boasts a pedigree that lists highly reliable bulls, proven in the Netherlands, each with many hundreds of lactating daughters.

One of these bulls is his sire, Jotani, an unparalleled conformation specialist. Jotani passes on milk production with an equal ratio of fat and protein. He scores remarkably well for conformation, excelling in legs in particular. And thanks to the contribution of Jotan x Konvoy, he will inject an unusual pedigree into the red-and-white population.

Tribute's maternal grand sire Youri also transmits good conformation, including very good legs. However, his real specialism is components, which - in view of the copious milk production of the Trees family - is a welcome addition. Tribute's grand dam Trees 108 was already noted for her high milk production, resulting in lifetime production of almost 80,000 kg, while his dam Trees 142 has gone on to top that. Trees 142 is the perfect picture of what a cow should be according to KI-Samen: not too large, plenty of width and with very good udders and correct...
