A.I.-code	36539	Kappa Casein	AB
aAa code		Beta Casein	A1/A1
colour	RB	Cow family	
Breed	100% MRIJ	Straw colour	brown

The MRIJ bull Meervelder Cobra's Prins (Prins 2 x Berend x Andries) is a well developed, typical bull with good feet & legs.

In the pedigree of Prins 2 we find a combination of old, proven bulls and a cow-family who belongs to the best on their farm. So does the Cobra-family belong to best on production, conformation and longevity.

Sire Prins 2 doesn't need much explanation. This bull belongs, especially in his younger years, to the best "milk"-bulls. If we look to his conformation than we see that he has good numbers for frame, feet & legs and muscularity. Attention point are the udders. As above mentioned, is the dam line of Prins a great family. The Cobra-family have good conformation (VG 87 x VG 85 x VG 85) with very good protein percentages (high than 3.60%) and high lactation values. Dam Cobra 267 and granddam Cobra 232 realized lactation values of 110 and Cobra 255 and Cobra 279 lactation values of 120! These two cows, Cobra 255 and Cobra 279 are half sisters of Cobra 267 (dam of Prins). It seems that Cobra 232 (granddam of Prins from a 12 year old Cobra 161) is a great breeding cow.
