Herdbook number	NL 352560490	Gestation length	277
A.l.-code	36574	Kappa Casein	BB
aAa code	531	Beta Casein	A1/A1
colour	RB	Cow family	
Breed	100% MRIJ	Straw colour	Red

The 100% MRIJ bull Meervelder Gerbert (Guido x Herbert x Doortje's Mars) is a very well developed, strong bull with very good (fine) feet & legs. As well the cows as the bulls in his pedigree sire are kind the same: very good all-round level. So improve Guido, Herbert and Doortje's Mars all milk, fat percentage and the protein percentage. Also have all of them good conformation with very good scores for persistence and lateness of development.

Of these 3 bulls is Guido, the sire of Gerbert, the bull with highest production and conformation. On conformation level is Guido even a top bull. Guido gives his daughters good udders and feet & legs with super rumps. Guido also scores good for fertility and somatic cell score.

The dam line of Gerbert is a well known family for K.I. Samen of which we tested already Merlo 13. This Merlin-family is a family with very good conformation and super productions (high percentages). So realized dam Merlin 29 an average lactation value of 123 and granddam Merlin 22 an average lactation value of 117. These cow produce easily and have very good muscularity.
