Breed	100% BBL
Date of birth	2019-10-20
Gest. length days	277
Gestation length	98
Calving ease	119
Straw colour	Turquoise *

Messi van Maris is a bull bred by the Hunnekes family. In just a few years, based on their long experience in breeding Belgian Blue, the Hunnekes family has succeeded in creating a branch that breeds white beef-on-dairy bulls. Eltin, Senco, Rowan and Riveur are all bulls who have passed their tests with flying colours. Messi is a bull with a short gestation time (277 days). He was sired by Brasero. Brasero also sired Rowan and Jordy, both of whom were also tested with success and progressed to become breeding bulls.

Messi's maternal line also shows a shorter than average gestation length and has good muscularity.

Messi scores a solid 4 out of 5 stars for maternal calving ease. He has a short gestation length and two of his half-brothers also score well for calving ease.
