## BULL INFORMATION

Name	Molenkamp Rojo	Date of birth	2014-09-03
Herdbook number	NL 876749676	Gestation length	281
A.I.-code	361005	Kappa Casein	AB
aAa code	342	Beta Casein	A2/A2
colour	RB	Cow family	Grietje
Breed	100% HF	Straw colour	Red

Molenkamp Rojo (Timon x Spencer x Jocko) is a bull with a maternal line that has been more often in the spotlights during the last couple of years. The Grietje branch is doing exceptionally well for both the male and female line. The first proven bull has already appeared and several bull sires can be found even among the younger bulls.

Rojo's sire is not often used as a bull sire. Yet this bull does possess a number of very appealing qualities. His bloodline (Talent x Faber) is a common one and he makes good improvements on the conformation front (namely in terms of udders). The frames (not too large and a good width) and somewhat crooked legs could be appealing to some. In addition, his scores for fertility and cell count are around average and his daughters have good hoof health and sustainability.

As mentioned earlier, the Grietjes, Rojo's maternal line of Rojo, are receiving a lot of interest (from among other A.I. organisations). This predominantly black cow family (red factor is many generations removed) has a very good foundation in Rojo's great-great grandmother, the Cash-daughter Grietje 13 (VG 85). She reached a very high life production (more than 100,000 kg of milk) and delivered good daughters (all VG). From her 87 point daughter Grietje 23 we...
