PRACTICAL PROVEN BREEDING

BULL INFORMATION

Name	Moos van de Graashook
Herdbook number	NL 587228499
A.I.-code	361320
colour	EW
Breed	100% BBL
Date of birth	2022-04-08
Gest. length days	276
Gestation length	93
Calving ease	137
Straw colour	Grey

Moos van de Graashook was sired by Mogli out of a Lucas dam with the same maternal line as Bobo, Beer and Brutus. This cow family has produced Bobo, a beef on dairy bull with the best calving ease scores.

K.I. Samen has also tested Brutus, who shares the same Lucas dam as Moos. All the sons produced by this maternal line score higher than expected for calving ease and have very good scores for the short gestation time.

Just like his proven relatives, Moos is expected to produce very lightweight calves, born after what will probably be an even shorter gestation time. This means that Moos also merits 5 stars for calving ease and will probably also pass on a shorter gestation time.
