Mallorca comes from a well-known line for KI Samen, but from a different branch. This Malone son descends from Renegade x Jetset x Filou. A generation back, we find Madame 5, who through her Supershot daughter Madame 6 is also the grandmother of Magician rf and Cordaat. This Madame line originates from the famous Massia family, and is now being bred for several generations on the Noordman family farm in Sterksel. Due to a diet that has become increasingly grass-based, fat and protein levels on paper may not seem high, but a deeper look reveals a family of healthy, efficient cows that produce large volumes of milk from roughage. Mallorca's young, attractive dam, Madame 7423 (VG 88), is doing very well in her second lactation, clearly above herd average. Her excellent dam Madame 7056 is nearing 60,000 kg lifetime production.
