colour	EG
Breed	100% AA
Date of birth	2019-02-15
Gest. length days	
Gestation length	
Calving ease	
Straw colour	Transparant

Quarterback is a very interesting Murray Grey bull. After our first Murray Grey offering Cadfor Genesis, we were flooded with requests to find a new one. Quarterback is a formidable bull. He showed above average length and depth in the skeleton as a young bull. His sire Monterey Major League M30 is especially known for contributing an extra dose of growth. Like his son Quarterback, he also has very good legs.

Quarterback's dame is a wonderfully impressive, beefy cow, and her sire improves all beef traits of the breed.

The combination that resulted in Quarterback has proven to be very successful. Calves by Quarterback have a very light birthweight. He promises to be a worthy successor to Cadfor Genesis.

Quarterback is very suitable for use with progeny of Cadfor Genesis
