361126 • Navarro
## Balu x Slotsboom's Pilot x O-man • aAa: 342

Alger Meekma

Breeder: Melkveebedrijf J.L. Koopmans, Oosterwolde

+ Plenty of milk

+ Great type

+ Good udders

+ Calving ease bull

BULL INFORMATION

Name	Navarro	Date of birth	2017-01-25
Herdbook number	NL 887813711	Gestation length	280
A.I.-code	361126	Kappa Casein	AB
aAa code	342	Beta Casein	A1/A2
colour	ZB	Cow family	Martje
Breed	100% HF	Straw colour	Turquoise *

Solid, reliable and all-round are just a few characteristics that certainly apply to Navarro (Balu x Pilot x O-Man). And don't forget, he also offers an important bonus in the form of a high protein content in his female descendants, and an equivalent or positive protein transmission in his male progeny. These bulls also all score well on durability, udder health, fertility, claw health, persistency and late maturity traits. Now, that's what we call all-round!

Navarro's sire, Balu, who is an ideal maiden heifer bull, has been widely used to sire bulls. This son of Balisto currently has many productive daughters all over the world. These cows are exceptionally productive and also score high on protein content. Balu daughters also feature solid, all-round conformation and combine a good milking speed with outstanding somatic cell counts. Balu also has favourable scores for beta-casein (A2A2) and kappa-casein (BB).

The maternal line of Navarro is maybe unfamiliar, but this pedigree perfectly satisfies all the requirements placed by K.I Samen on bull dams. Cows with super conformation and production traits, and that offer a little extra in the area of protein. Great grand dam Martje 320 (VG 88) is exemplary in this respect with an average protein content in excess of 3.70%. And her...
