Date of birth	2016-06-15
Gest. length days	
Gestation length	105
Calving ease	110
Straw colour	Grey

NORBERT is an incredibly impressive bull, who has been able to start a career in KI thanks to the huge efforts made by Bert van Abeelen. Bert succeeded in tracing the DNA of Norberts' dam and sire, so the bull could still be fully registered. Well done Bert!

NORBERT's sire, Jack van Halfweg, is an equally impressive bull who has very few progeny but does have a prolific record in the show ring. He took home first prize as a young bull at Enter in 2014. In 2016 - again at Enter - he took part in the national classification and won twice.

The granddam of this bull is a result of Bert van Abeelen's breeding efforts and, mated with Ramses 3, produced his dam. Ramses 3 has not had much influence in Dutch improved red beef breeding.

NORBERT can combine stature with very good muscularity, and is predominantly red. He is a versatile, useful bull.
